

FAMILY SUPPORT PROGRAM

All families can benefit from extra support to help them provide the best care for their children. The **Family Support Program** at Gemma is designed to help families with children ages 2–5 access extra support. Families work with a Family Support Partner to build upon their strengths and achieve their goals. The objective of this program is to help families access supports and services that promote their and their children's well-being, enhance

their skills, and strengthen their problem-solving abilities. Our teams help to promote optimal child development and increase caregivers' confidence. This program is supported by the Office of Child Development and Early Learning (OCDEL) of Pennsylvania's Department of Human Services (DHS) and Pennsylvania's Department of Education (PDE).
